Healthcare and Public Health Sector

25. *November 6, Connecticut Mirror* – (Connecticut) **AG: Hartford Hospital, contractor to pay \$90,000 in 2012 data theft.** The Connecticut attorney general's office announced November 6 that Hartford Hospital and its contractor EMC Corporation will pay the State \$90,000 to resolve allegations following an investigation into the June 2012 theft of a laptop containing unencrypted information for 8,883 patients that was stolen from the home of an EMC Corporation employee. As part of the settlement, the hospital will continue training and increase security measures, in addition to other requirements.

Source: <http://ctmirror.org/2015/11/06/ag-hartford-hospital-contractor-to-pay-90000-in-2012-data-theft/>

26. *November 6, Jeffersonville News and Tribune* – (Indiana) **State to retest high-risk people in area for HIV.** The Indiana State Department of Health and the U.S. Centers for Disease Control and Prevention announced November 6 that nearly 300 high-risk individuals who have had contact with people who tested positive for HIV in the southeastern Indiana HIV outbreak will be retested beginning November 7, if they have not had repeat HIV tests within the last 30 days.

Source: http://www.newsandtribune.com/news/state-to-retest-high-risk-people-in-area-for-hiv/article_8bc5ee18-84cd-11e5-8d10-cb0e61cfa163.html

Government Facilities Sector

27. *November 7, Flint Journal* – (Michigan) **Three teens arrested in alleged school shooting plot at Linden community schools.** Authorities arrested and charged 3 teenagers October 29 following an investigation into an alleged plot to carry out a school shooting at Linden Middle School and Linden High School in Michigan October 30. Police began an investigation after a school resource officer was given information on the alleged plot October 28.

Source:

http://www.mlive.com/news/flint/index.ssf/2015/11/three_teens_arrested_in_allege.html

28. *November 7, Hartford Courant* – (Connecticut) **DMV phone center back in service after shutdown.** The Connecticut Department of Motor Vehicles Phone Center experienced issues with its phone line for 3 hours November 7, prompting the center to shut down while crews resolved the problem. The issue was due to a telephone line and a switching mechanism that services the department's main number.

Source: <http://www.courant.com/breaking-news/hc-service-outage-shuts-down-dmv-phone-center-20151107-story.html>

29. *November 6, WQOW 18 Eau Claire* – (Wisconsin) **Neillsville power outage closes Clark County Courthouse.** A power outage November 6 prompted the closure of the

Clark County Courthouse in Wisconsin following an issue at an Xcel Energy-owned substation in Neillsville.

Source: <http://www.wqow.com/story/30456416/2015/11/06/neillsville-power-outage-closes-clark-county-courthouse>

30. *November 6, Associated Press* – (Connecticut) **State ex-tax worker charged with unauthorized records access.** The Connecticut Department of Revenue Services reported November 6 that a former employee was arrested and charged for allegedly accessing confidential taxpayer information through a State-issued computer.
Source: <http://wtnh.com/2015/11/06/state-ex-tax-worker-charged-with-unauthorized-records-access/>

Emergency Services Sector

Nothing to report

Information Technology Sector

31. *November 9, Securityweek* – (International) **User data compromised in Touchnote breach.** UK-based postcard-sending service, Touchnote revealed that its systems were compromised in an attack that stole customers' personal information including names, email addresses, postal addresses, and other histories that may be used to trick victims into supplying attackers with more sensitive information. The company has notified impacted customers and an investigation is ongoing to find the attackers.
Source: <http://www.securityweek.com/user-data-compromised-touchnote-breach>
32. *November 9, IDG News Service* – (International) **No surprise here: Adobe's Flash is a hacker's favorite target.** Researchers from Recorded Future released a new study November 9 revealing that Adobe Systems' Flash plugin was the highest targeted software program used by cybercriminals to install malware onto computers following research that revealed 8 of the 10 top vulnerabilities were seen targeting Adobe's Flash plugin.
Source: http://www.computerworld.com/article/3003062/security/no-surprise-here-adobes-flash-is-a-hackers-favorite-target.html#tk.rss_security
33. *November 8, Softpedia* – (International) **Security flaws found in Google Chromecast, Home Security Systems, Smart Coffee Makers.** Security researchers from Kaspersky discovered several vulnerabilities in Internet of Things devices (IoT) including a "rickrolling" vulnerability in Google Chromecast devices that enables attackers to hijack smart TV content, a vulnerability in a smart coffee maker device that exposes the user's Wi-Fi password, allowing attackers to spy on homeowners by connecting to Internet protocol (IP) cameras used in Webcams and baby monitors, as well as infiltrate a home security system by using powerful magnets that allows attackers to gain access to homes without triggering the alarm.
Source: <http://news.softpedia.com/news/security-flaws-found-in-google-chromecast-home-security-systems-smart-coffee-makers-495864.shtml>

34. *November 6, Softpedia* – (International) **Ransomware found targeting Linux servers and coding repositories.** Researcher from Russian-based antivirus maker Dr. Web discovered a new ransomware that targets Linux Web servers and attacks Web development environments used to host Web sites or code via a downloaded file containing the public RSA key used to store AES keys that add .encrypt extension to each file, as well as a ransom text message where it encrypts data. The ransomware was detected as Linux.Encoder.1 and uses the PolarSSL library.
Source: <http://news.softpedia.com/news/ransomware-found-targetting-linux-servers-and-coding-repositories-495836.shtml>

Communications Sector

35. *November 9, Outer Banks Voice* – (North Carolina) **Fiber optic cable cut caused overnight AT&T outage.** AT&T officials reported that a fiber optic cable was cut November 8 causing an overnight outage for wireless customers on the Outer Banks and across much of northeastern North Carolina. Technicians repaired the damage and restored service November 9.
Source: <http://outerbanksvoice.com/2015/11/09/update-fiber-optic-cable-cut-caused-overnight-att-outage/>

Commercial Facilities Sector

36. *November 8, Rutland Herald* – (Vermont) **45 evacuated in Brattleboro apartment house fire.** A 4-alarm fire November 7 in Brattleboro, Vermont, displaced 45 residents at a multi-unit apartment house while crews extinguished the blaze. No injuries were reported and the American Red Cross is assisting the displaced residents.
Source: <http://www.rutlandherald.com/article/20151108/THISJUSTIN/151109507>
37. *November 8, WRC 4 Washington, D.C.* – (Maryland) **Buildings shake, damaged in Prince George's County.** Twenty-two apartments were evacuated and dozens of families displaced November 8 after two Lanham apartment buildings were deemed temporarily unsafe following an incident in which both buildings shook and caused large cracks along the walls and ceilings. An inspection was scheduled November 9 to assess the building.
Source: <http://www.nbcwashington.com/news/local/Buildings-Shake-Damaged-in-Prince-Georges-County-343016532.html>
38. *November 8, Los Angeles Times* – (California) **Smoke near Westside Pavilion leads to theater, mall evacuation.** The Los Angeles Fire Department reported November 8 that Landmark Theatres and part of the Westside Pavilion mall were evacuated and

power to a three-story building close to the mall was shut off after smoke was seen coming out of a nearby underground power vault. Crews were working to repair the vault.

Source: <http://www.latimes.com/local/lanow/la-me-ln-westside-pavilion-smoke-evacuation-20151108-story.html>

39. *November 8, KGO 7 San Francisco* – (California) **3-alarm tire store fire displaces 21 in SF's mission district.** A 3-alarm fire at Rolling Stock Tire Shop in San Francisco displaced 21 residents, caused extensive damage to the building, and prompted 100 firefighters to remain on site for several hours November 8 after the fire reportedly began from garbage dropped onto the roof by nearby tenants. No injuries were reported.

Source: <http://abc7news.com/news/3-alarm-tire-store-fire-displaces-21-in-sfs-mission-district/1074257/>

40. *November 7, Southwest Michigan Herald-Palladium* – (Michigan) **Four Winds warns of credit card breach.** An official from Four Winds Casino Resort reported November 5 that its network system was compromised revealing cardholder names, card numbers, expiration dates, and internal verification codes for an unknown number of customers at its properties in New Buffalo, Hartford, or two facilities in Dowagiac following an investigation that found a program was installed onto the casino's network to search for payment card data from October 2014 – October 2015.

Source: http://www.heraldpalladium.com/news/local/four-winds-warns-of-credit-card-breach/article_62ddc82a-64af-54e1-863c-b4052d000819.html

41. *November 6, KABC 7 Los Angeles* – (California) **Fire erupts at 2 adjacent apartment buildings in Anaheim; 40 displaced.** A 3-alarm fire at the Rancho Benmore Apartments in Anaheim, California, displaced at least 40 residents, damaged 8 apartment units, and caused \$500,000 in structural damage November 6. One firefighter sustained injuries and the cause of the fire remains under investigation.

Source: <http://abc7.com/news/fire-erupts-at-2-adjacent-apartment-buildings-in-anaheim;-40-displaced/1071321/>

42. *November 6, Springfield State Journal-Register* – (Illinois) **Springfield woman accused of embezzling from auto repair business.** A Springfield, Illinois woman was indicted November 4 in connection to a scheme that embezzled \$500,000 from Kim's Auto Body from 2009 to 2014. The suspect, who worked as an office assistant at the shop, used the proceeds to pay for personal expenses.
